

# California OES Weather Threat Briefing

Sunday, January 9, 2022  
9:00 AM PST

**Day 1 (Sunday):** Gusty offshore winds are expected across portions of southern California, with minor damage and travel impacts possible in prone locations.

National Weather Service

*Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**01/09/22 - 01/15/22**

## **Sunday - Saturday**

- Periods of gusty offshore winds are expected across southern California through Tuesday or Wednesday, with gusts of 30-45 mph possible in prone locations
  - Minor damage and travel impacts are possible due to these gusty winds
- Dry weather will persist across the state through Sunday, followed by a chance of some very light rain along much of the coastline on Monday
- Areas of dense fog are possible through the week, which could impact travel across the state
- A few periods of light precipitation are possible across the state mid-to-late week, with light snow possible over the higher mountains, but generally speaking drier weather will persist through the week for many locations
  - At this time, no significant precipitation impacts are expected
